## MILITARY INSTALLATIONS, VESZPREM, HUNGARY

This report is a partial answer to DIA requirement DIAXX 63-84, to verify the location of selected military installations in Hungary and to perform a photo analysis of these installations to determine function, number and dimensions of buildings, to estimate troop capacity, to identify and describe related training areas and facilities, and to confirm or negate ammunition and POL storage. This report covers selected military installations in the Veszprem area.

TALENT photography of [REDACTED] was used to determine dimensions and functions of buildings. KEYHOLE photography of [REDACTED] and [REDACTED] was used to confirm this information. KEYHOLE photography revealed no expansion or build-up in these installations since [REDACTED].

The estimated troop capacity of the three barracks areas near Veszprem is 15,476, based on a total floor space of 773,825 square feet.\*

The installations described below are keyed to Figure 1.
